Berkeley/Stanford CompFest

10th Computational Mechanics Festival

Stanford · **UC Berkeley**

A one-day conference for students, postdocs, and faculty

Saturday, January 30, 2027

9:00 AM – 5:00 PM PT

Shriram Center, Room 104 — 443 Via Ortega

ABOUT

The Berkeley/Stanford Computational Mechanics Festival (CompFest) is a small, one-day conference where students, postdocs, and faculty from Stanford and UC Berkeley present short research talks. Presentation slots are limited to Berkeley/Stanford affiliates; attendance is open to all, including industry colleagues who join for networking. Topics span computational mechanics, solid and fluid mechanics, energy, numerical methods, materials science, applied mathematics, and scientific machine learning.

TOPICS

Computational mechanics · Solid mechanics · Fluid mechanics · Energy · Numerical methods · Materials science · Applied mathematics · Scientific machine learning

Register or submit abstracts by January 8, 2027
